

AUTOMOBILE RACE.

The First Stage From Paris to Madrid Finished at Bordeaux, 343 Miles.

LOUIS RENAULT WAS IN THE LEAD

A Number of Accidents Resulted in Which Several Persons Were Killed and Hurt on Route.

France and Spain Have Forbidden the Continuance of the Contests, and the Race Will Likely Be Declared Off.

Paris, May 25.—The first stage in the Paris-Madrid automobile race from Versailles to Bordeaux, 343 miles, finished at noon Sunday, when Louis Renault dashed at a furious pace into Bordeaux, having made a record run of eight hours and 27 minutes. An hour later M. Gabriel arrived, with a still better record of eight hours and seven minutes. It is estimated from the miles that these automobiles covered 62 miles an hour on the road outside the city. These victories, however, were clouded by a series of accidents having fatal results.

The name of W. K. Vanderbilt, Jr., disappeared from reports along the route after Rambouillet, where he passed 28th in order at a quarter of 5 Sunday morning, going in fine form. The omission of his name from the dispatches from Chartres, the next town on the road, caused some anxiety, and brought forth a number of inquiries. It was learned later that he, Henri Fournier and Baron de Forest withdrew from the race together before reaching Chartres. All of them suffered breakdowns, and, having lost three hours, they decided that it was useless to continue.

Foxhall Keene, Tod Sloan and W. J. Dannat, the American artist, did not appear at the starting line Sunday morning when their turn was reached and consequently did not take part in the races. C. Gray Dinsmore is thus the only American left in.

Despatches arriving from points along the course add to the list of fatalities and accidents. The most terrible occurred 19 miles from Chartres, where Machine No. 243, driven by M. Porter, was overturned at a railroad crossing and took fire. The chauffeur was caught underneath the automobile and burned to death, while two soldiers and a child were killed. A chauffeur was badly injured by an accident to his motor car near Angoulême. A woman crossing the road in the neighborhood of Abilis was run over by one of the competing cars and killed.

Mr. Stead and his chauffeur, who were first reported to have been killed, are still alive.

It is stated that Louis Renault's automobile attained at Beaudinierie, between Chartres and Bonneval, a maximum speed of 88 1/4 miles per hour.

It is reported that the Spanish government has forbidden the continuance of the race on Spanish territory.

During the afternoon word of the accidents began to arrive and cast a cloud over the event. A despatch from Bordeaux announced that Lorraine Burrows had met with a shocking accident near Libourne, 17 miles from Bordeaux, at 1:45 p. m. It appears that M. Burrows had tried to avoid a dog which was crossing the track, and his monster car struck a tree with terrific force. His chauffeur was killed outright. Burrows himself was picked up unconscious but still breathing and was taken to a hospital, where his condition was pronounced critical. His car was dashed to pieces. Shortly afterwards news came that Marcel Renault had been overturned in a deep ditch beside the road near Coupe, 21 miles from Poitiers, and that he was dangerously injured. The automobile club of Bordeaux received a despatch at 4 o'clock saying Renault was unconscious, and, it was feared, dying.

In view of the number of accidents, some fatal, in the first stage of the Paris-Madrid automobile race, from Versailles to Bordeaux, Premier Combes has forbidden the continuance of the contest on French territory. The second stage of the race, which was to have been continued on Tuesday, included a run over French territory from Bordeaux to the Spanish frontier. Premier Combes' action will probably lead to the races being abandoned.

Bristol, Eng., May 25.—A serious motor cycle accident occurred here Saturday. The motor swerved into a crowd of spectators, two of whom were killed and many others seriously injured.

Rockefeller's Gift.

Washington, May 25.—John D. Rockefeller has given \$50,000 to the Washington Young Men's Christian Association. This gift, however, is conditional.

GEN. BUELL'S RESIDENCE.

The Secret Room Was Invaded By Thieves and Robbed.

Owensboro, Ky., May 25.—When Gen. Don Carlos Buell, the noted union general, died five years ago in the castle-like mansion that stands at Aldrie, on the banks of Green river, in Muhlenberg county, a provision was left in his will that a certain room in the building should never again be opened under any circumstances.

Gen. Buell's remains were taken to St. Louis for burial. His nearest kin was a stepdaughter, Miss Nannie Mason, who is now with the sisters of Sacred Hearts, of Louisville. For the past five years the mansion, with 20 rooms, has been constantly guarded by Ramsey Briggs.

Briggs discovered Saturday that the house had been robbed the night before. Indications were that the sacred room had also been broken open, and no telling what is missing. Briggs called in the neighbors, but none would dare go into the sacred room to see if everything was all right. A valuable book on the front veranda and the big broken glass in the front door showed that the house had been vandalized. Briggs always stays in the rear and hardly ever opens the front of the house.

Miss Mason has been sent for, and probably will arrive at Aldrie Sunday night. It was never known why Gen. Buell ordered that his private room should never be entered after his death.

SCHOOL BUILDING DESTROYED.

Thirty-Three Persons Were Burned, Five of Them Critically.

Carlisle, Ky., May 25.—Thirty-three persons were burned, five of them critically, one man was thrown under a fire engine when it was overturned, and Carlisle's graded school building destroyed by a blaze that started in its basement.

Those whose injuries may result fatally are Rev. F. M. Tindler, E. O. Dorset, Joseph Day, Thomas George and Chief of Police C. C. Dunn. All were burned about their heads and hands, and Rev. Mr. Tindler and Dorsey will probably lose their sight even if their lives are saved. Mayor Kennedy was knocked down by a fire engine as it turned over, and his left leg was badly bruised and crushed.

May Name Judge Denton.

Frankfort, Ky., May 25.—The court of appeals having decided that Judge Cantrill must vacate the bench in the case of Commonwealth vs. Caleb Powers, in the Scott circuit court, rumors have been created as to who the special judge in the case will be. Some have it Judge William L. Reeves, of Todd county, and others have it Judge Denton, of Winchester.

Hargis Visited Beckham.

Frankfort, Ky., May 25.—Judge Jas. Hargis, of Breathitt county, was here Saturday attending the meeting of the state central committee, of which he is a member. He said he had never opposed the sending of soldiers to Jackson. Judge Hargis called on Gov. Beckham as a matter of courtesy, but remained only a few minutes.

High mass was celebrated at the Mother of God church, in the morning, which they attended with their children and grandchildren.

WINDS AND FLOOD.

More Than One-Half of Oklahoma City, Okla., is Under Water.

THREE FEET DEEP IN SOME HOUSES

All the Trains Into the City, With the Exception of One, Are Water Bound.

A Terrific Thunderstorm, Accompanied By High Wind, Did Considerable Damage to Property in Pittsburg and Vicinity.

Oklahoma City, Okla., May 25.—Oklahoma City was visited Saturday night and Sunday morning by an exceedingly heavy rainfall and damage estimated at \$100,000 was done. Many feared a tornado and spent the night in cellars and caves. Sunday and Sunday night more than half of Oklahoma City has been under water, and in some instances water was three feet deep in houses. It required boats to transport women and children through the streets to higher and dryer land. The basements under many of the big wholesale houses were flooded, the water in some cases being 10 feet deep.

The Alton-Dawson Grocery Co. sustained a damage to its stock of \$20,000. The damage to the Alexandria Drug Co.'s stock is \$10,000. The Oklahoma City mill and elevator lost 10,000 bushels of wheat. Sample cases stored in the basement of the Hotel Lee were damaged to the extent of several thousand dollars. Traffic on the electric railway is suspended, the power-house being under water. All trains into Oklahoma City, with the exception of the Sante Fe, are waterbound, and many washouts are reported west on the Choctaw. The Choctaw, Oklahoma and Gulf passenger train, due from the west this morning, is reported in a washout at Yukon. The Canadian river at this point is more than a quarter of a mile wide, with a four-foot rise in sight. People living in tents along the river front were compelled to flee to higher ground.

All wagon bridges over the river are under water, and the railroads have big forces at work guarding their bridges.

STORM AT PITTSBURG.

Two Men Killed By Lightning and Much Property Damaged.

Pittsburg, May 25.—A terrific thunderstorm, accompanied by a high wind, struck this section Sunday afternoon, and besides killing two men did considerable property damage.

Milton W. Robinson, a resident of West Pittsburg, drove to Schenley park with a party of friends for an afternoon enjoyment. When the storm came up Robinson sought shelter from the drenching rain under a big ash tree in Panther Hollow. He had been there but a moment when lightning struck the tree, literally tearing it to pieces and killing Robinson instantly. Robinson's four or five friends, who were within 25 feet of him at the time, escaped without even a shock from the bolt.

John Wilson ran for shelter to a stable about 300 yards distant from where Robinson was killed. The stable was partly destroyed. Later Wilson's dead body was discovered.

At Braddock lightning struck a street car on the McKeesport branch of the Pittsburg Railway Co. and caused a panic among the passengers, many of the men jumping from the car as it sped down the hill. Three of them were pretty badly bruised, and Christopher O'Toole, who fell on his head, is perhaps fatally hurt. The women passengers tried to jump also, but were prevented by some of the cooler-headed among the men. Much damage was done to shade trees, many being blown down and several were split in twain by lightning. The rainstorm was followed by a hailstorm.

SWEEP BY A TORNADO.

Considerable Damage Was Done in Central Illinois.

Bloomington, Ill., May 25.—A tornado swept across Central Illinois Sunday, causing much damage. No lives were lost. The storm moved from southwest to northeast, accompanied by torrents of rain and lightning. Two grain elevators were blown over at Carlock, and many barns and structures were destroyed. Thousands of shade trees were uprooted. This was the first heavy rain this spring and proved of value to crops.

St. Louis, May 25.—Mrs. Clementine Papin-Carrier, who was born in St. Louis in 1818, died Sunday. She was a great-granddaughter of Pierre LaCade, founder of St. Louis.

DISPLAY OF THE WEED.

Kentucky Tobacco Signally Honored by World's Fair Officials—All Growers Can Send in Samples.

The Tobacco Exhibit Committee of the Kentucky Exhibit Association is rapidly maturing its plans for a display of the "weed" at the World's Fair next year. As has been stated in these columns before, Kentucky will have fifty per cent. of the total amount of space given to tobacco in the Agricultural building. This means that the committee in charge of the display from the Blue Grass State will have at its disposal 5,000 square feet.

Mr. Chas. D. Campbell, the Chairman of this committee, proposes to make the exhibit not only instructive and valuable, but strikingly original. At the next meeting of his committee he will present a plan that will contemplate securing from every tobacco grower in the State—and there are something like 30,000 of them—a sample of premium tobacco. He is not making public the scheme of his exhibit, but enough of it is known to assure the public that every tobacco grower who contributes a sample will be given full credit in the display for his donation, and will be proud of the fact that he has contributed a good specimen.

Mr. Campbell has a committee consisting of about a score of the State's best known tobacco people, representing every distinctive type of this Kentucky product. He has recently issued a letter to the members, asking each to secure in his district thirty samples with the name of the donor on each sample, and to represent in the samples collected, each grade of tobacco from trash to fine leaf. These samples will consist of fifteen hands. They may be from the 1892 crop or the 1903 crop. In case they are from the former, they will have to be delivered in Louisville before Oct. 1st, if from the latter, not until March 1st next.

Dr. J. M. Frazee is a member of this committee from Mason County, and he urges growers and dealers to send him samples for this exhibit.

TROOPS ARE THERE

A Battalion Numbering 120 Men Arrived at Jackson, Ky., and Went Into Camp.

WILL PRESERVE ORDER IN TOWN.

One Infantry Company From Shelbyville and Two Batteries of Artillery From Louisville and Lexington.

The Investigation of the Assassination of James B. Marcum, the Last Victim of the Feud, to Be Commenced.

Jackson, May 25.—A battalion of troops numbering 120 men arrived in Jackson at 5 o'clock Sunday afternoon to preserve order in the town and about the courthouse during the investigation of the assassination of James B. Marcum, the last victim of the Hargis-Cockrill feud. The battalion, made up of one infantry company from Shelbyville and two batteries of artillery from Louisville and Lexington, arrived on a special train from Lexington, and at once pitched camp on the common owned by Alex Hargis, near the center of town.

The arrival of troops was unmarked by any particular incident. Traveling on the special train with the soldiers were County Judge James Hargis and his brother, State Senator Alex Hargis, the two most prominent members of the Hargis family. Another passenger was Judge Bach, who is regarded as the most important of the witnesses summoned to testify before the special grand jury as to the assassination of Marcum. Judge Bach returned from Los Angeles, Cal., to give evidence. During the course of an interview he expressed the belief that no disorder would occur as long as the troops remained. Judge Bach said he did not fear a personal attack, and declared that he would remain at his home without taking any special measures for self-protection.

Public opinion is divided as to the probability of indictment of Marcum's assassin as a result of the work of the special grand jury which will be impaneled Monday, with Judge Redwine sitting on the bench.

Curtis Jett, who is under arrest at Winchester charged with the crime, will not ask for a change of venue if indicted and returned to Jackson. Prosecuting Attorney Byrd stated that it is possible that such a motion might be made by those interested in the prosecution. Doubt is expressed by many as to the probability of witnesses mustering up courage to tell the grand jury all they know. The common belief is that fear of assassination after the troops are gone may seal the lips of those who may know about the killing of Marcum. No time has been set for the withdrawal of troops.

DETAINED VALUABLE LETTERS.

Being Uncalled For, the Postmaster Threw Them in the Waste Basket.

Guthrie, Okla., May 25.—Amos Leedy, aged 60 years, postmaster at Leedy, Okla., has pleaded guilty to the charge of detaining valuable letters in land contest cases. The case is peculiar in that the letters remained in the office uncalled for, and Leedy, ignorant of what course to pursue, threw them into the waste basket. On account of his age he was let off with a fine and given permission to return home alone for the money to pay it with.

Made a Garden?

Owing to the long drouth gardening has been very backward this spring. If you have not started your garden yet, there is still time to do it and get nearly as good returns as those who planted earlier. Especially will this be the case if you get your seeds here. Our seeds are all of last years growing, and were given the attention needed to produce the best seed. We have all the choicest, quick-growing varieties and they cost not one cent more than what you would have to pay for questionable seed. As the season is so late better not take any chances—get your seed where only good seed is sold—that's here.

THOS. J. CHENOWETH,

TRACTION NEWS.

Preliminary Survey of the Maysville-Mt.
Olivet Line to be Commenced Soon.

President Duley, of the Maysville and
Mt. Olivet Traction Company, is in re-
ceipt of many encouraging letters in re-
gard to this enterprise. He will an-
nounce some committees in a few days
to push the work of soliciting funds to
make the preliminary survey and work
up an interest in the line all along the
route.

Mr. Duley has a warm friend who is
President of a large company engaged in
the construction of electric roads and
this friend writes that he will send the
company's engineer here whenever the
preliminary survey is to be commenced,
to go over the route, give suggestions
and aid in every other way possible. The
gentleman referred to is indirectly inter-
ested in the development of this section,
and he is satisfied he can furnish infor-
mation that will enable the new com-
pany to save much on the construction
of the road.

Mr. Duley will be out of the city for a
few days.

THE MARKETS.

Review of Trade in Live Stock and Leaf Tobacco at Cincinnati the Past Week.

Cattle—Receipts fairly liberal, and most of the week prices have been weak and the market rather slow. Shipping grades of steers represent about 15a20c decline for the week, heavy butcher grades about 10c decline, but good heifer stock advanced about 5a10c.; bulls were steady to slightly lower. There is a fair demand for good heavy feeders, but stockers are neglected.

Hogs—A sharp decline in prices during the week is the result of enlarged receipts throughout the Western markets. Good heavy hogs that were selling at \$6.70a6.75 a week ago are now selling at \$6a6.10, and good light hogs have declined from \$5.40a6.50 to \$5.80a5.95. The quality of the offerings is fairly good.

Sheep—There were fair receipts and sheep declined during the week 40a50c., best now bringing \$4.30. Lambs declined 57ca\$1, extra now bringing \$5.25 against \$6.50 a week ago.

Tobacco—There was a heavy increase in both offerings and receipts during the week as compared with last week, and also the corresponding week of last year. In the better grades of old tobacco the strong and active market which set in some days ago brought very satisfactory realizations to shippers, and, while there was an increase in the percentage of rejections, a close analysis of the market shows that the bulk of the rejections were in new tobaccos of the inferior grades and the common types of old under 6c.

The greater portion of the week's transactions were in old goods, and the proportion of the better grades of this crop was the largest seen in the "breaks" for many weeks, 518 hhd. out of the 845 hhd. offered selling above 8c. and ranging from that figure to 18 3/4c.

Bright cutting leaf and fine red plug fillers were the best and strongest features in the sales of old, and spirited and active competition was manifest throughout the week between the independent manufacturers and combine buyers for these goods.

The offerings of new did not come up to buyers' or warehousemen's expectations either in quantity or average quality.

The new tobaccos were about equally divided between common trashes and cutting leaf under 6 1/2c. and the better types of red and bright goods from 8c to 12c. The latter were the best sellers under active competition between brokers and manufacturers.
